WAEL MOHAMED ERAQY

Technical Office Manager & Project Controls Engineer

Planning | Cost Control | Technical Office | Egypt & KSA Projects

Al Fayoum, Egypt | +20 101 985 6727 | waeleraqy9@gmail.com | www.linkedin.com/in/Wael-Eraqy

PROFESSIONAL SUMMARY

Project Controls Engineer with 12 years of experience in planning, cost control, and technical office management across hospital, hotel, and road projects in Egypt and KSA. Managed planning and cost control for projects worth EGP 370 million and led technical office work on hospital projects worth SAR 35 million. Covers the full technical office cycle: shop drawings, quantity surveying, BOQ and contract review, and submittals. Builds P6 baselines, cost control models, EVM reports, and Power BI dashboards, and automates reporting and document workflows with n8n and AI.

TECHNICAL SKILLS

- **Planning & Control:** Primavera P6, MS Project, Cost Control, Budgeting, EVM, Cash Flow, Reporting
- **Technical Office:** Shop Drawings, Quantity Surveying, BOQ & Contract Review, Submittals
- **Engineering & Drafting:** AutoCAD, Revit
- **Data & Reporting:** Microsoft Excel, Power BI (DAX)
- **Automation & AI:** n8n, Python, AI-assisted workflows
- **Documentation:** Microsoft Word, Microsoft PowerPoint

PROFESSIONAL EXPERIENCE

Technical Office Manager | Innovergent Jan 2025 – Present

- Manage the Technical Office in Cairo, supervising preparation and submission of design and shop drawings for hospital projects in the Kingdom of Saudi Arabia with a total value of SAR 35 million.
- Perform quantity surveying, BOQ and contract review, and prepare submittals for client approval.
- Oncology hospital project, Ocon-Clinics, KSA: built the Primavera P6 baseline by mapping BOQ to WBS, activities, durations, and resources, and developed a Budget Zero cost control model with indirect costs phased over the project duration.
- Oncology department of a hospital project, Taif, KSA: reviewed BOQ and contract documents to identify inconsistencies and cost risks.
- Lead project planning and cost control activities to ensure alignment with approved schedules and budgets.
- Ensure full compliance with technical standards, specifications, and contractual requirements.

Senior Project Control Engineer | Dalel EL-Hoda Jun 2022 – Jan 2025

- Managed planning and cost control for company projects with a total value of EGP 370 million.
- Developed time schedules and project budgets based on specifications and contractual requirements.
- Monitored project progress, analyzed deviations, and prepared periodic progress and cost reports.
- Built Power BI dashboards and Excel tracking tools for project progress and cost reporting.

Construction Manager | DETAC Sep 2021 – Jun 2022

- Managed construction of Air Defense House Hotel – New Administrative Capital.
- Project value: EGP 450 million.

Technical Office Engineer | DETAC Feb 2020 – Sep 2021

- Prepared shop drawings and performed quantity surveying for subcontractors and client submissions.
- Project value: EGP 30 million.

Construction Engineer | Elatemaad Jul 2017 – Feb 2020

- Executed construction works for Air Defense House Hotel – Hurghada (project value: EGP 100 million).
- Supervised construction of a gym building and horse stable in the New Administrative Capital (project value: EGP 170 million).

Road Engineer | Nile Company for Road Dec 2015 – Jul 2017

- Supervised construction of Damietta – Ezbet El-Borg Road.
- Executed construction of a concrete road at Damietta Port.

AUTOMATION & AI PROJECTS

- Built an AI agent on n8n that ingests unstructured text and image messages, extracts and classifies items, scores them against defined criteria, and routes them through a human-approval step. The same pattern applies to submittals, RFIs, and daily site reports.
- Developed formula-driven Excel cost control tools (Budget Zero, BOQ price analysis, indirect cost phasing) and Power BI dashboards using DAX for cumulative cost and progress tracking.

EDUCATION

Bachelor of Engineering, Civil Engineering – Fayoum University, 2014

PROFESSIONAL COURSES & TRAINING

- Cost Control Course – Experts Academy & HA Management
- Planning & Scheduling (Planning and Monitoring) – HA Management
- Delay Analysis Course – HA Management
- Data Analysis Course – Mazen Analytics

SOFT SKILLS

- **Leadership:** led technical office and construction teams across hospital, hotel, and road projects
- **Coordination:** align site, subcontractors, and head office on drawings, quantities, and submittals
- **Analytical Thinking:** analyze schedule and cost deviations and recommend corrective actions
- **Communication:** prepare and present clear progress and cost reports to management
- **Time Management:** deliver accurate work under deadlines across multiple concurrent projects

ADDITIONAL INFORMATION

- Available for relocation to KSA and international projects; ready to join upon notice period.
